

SAMURAI EXPERT AUTOMATIC

SAMURAI 700

The **SAMURAI 700** is a pull-style saw capable of easily cutting all types of wood, logs or bundles of branches. Thanks to the innovative system, the SAMURAI 700 allows you to work with minimal effort as you don't need to move the weight of the wood just the well-balanced blade. SAMURAI 700 makes the cutting fast, safe and efficient thanks to the use of high-level components and weighted wide blade, rollers help to advance the log and the PTO version has a hydraulic transmission. SAMURAI 700 is a sawing machine of a superior level to any other.

SAMURAI 700 EXPERT AUTOMATIC is an automatic cutting version, making the process simple and fast with superior productivity. With a maximum output of 7 cubic metres per hour, the SAMURAI 700 EXPERT AUTOMATIC can work with logs or split wood. The operator only has to load the wood to be cut and the machine does the rest!
